Mitrovicë, Kosova

### EDUCATION

#### COMPUTER SCIENCE AND ENGINEERING

University of Mitrovica

**2022 - Present**

### LANGUAGES

Albanian (Native)

English (Fluent)

### SUMMARY

Motivated and curious aspiring frontend developer with a strong interest in creating intuitive and engaging user experiences. Eager to contribute to a creative team, learn from real-world challenges, and grow both personally and professionally through a hands-on internship opportunity.

### PROJECTS

#### PERSONAL PORTFOLIO WEBSITE

I developed a personal portfolio website to showcase my skills, projects, and experience as a frontend developer. The site is built using vanilla JavaScript for interactivity, along with clean and responsive CSS to ensure a modern and user-friendly design. It features smooth navigation, project highlights, and a contact section. The website is fully responsive and optimized for different screen sizes. I deployed it using GitHub Pages for easy hosting and version control.
